omething About Mrs. Dimmick. Mrs. Dimmick is said to be little more than half as old as General Harrison, who was 52 last August. Her maiden name was Scott, and she was a niece of General Harrison's first wife, who died in the White House during the last year of his administration. During Mrs. Harrison's last illness Mrs. Dimmick was unremitting in her attentions at the bedside, and she undertook all the family details in arranging for the White House funeral. Afterward she became more indispensa-ble than ever to the president, and remained with the family as long as they were in the White House. Since then she has passed most of her time with her sis-

NEWS IN INDIANAPOLIS.

INDIANAPOLIS, Jan. 20.—The announ nent received here from New York that Gen. Harrison is engaged to marry Mrs. Mary Scott Dimmick was not a surprise to the intimate friends of the ex-president. Weeks ago they settled down to the belief that there was to be a marriage, and they believed, too, that it would be preceded by a formal announcement. It is believed here that the marriage will take effect about May 1. The new wife will receive a hearty welcome to Indianapolis cociety. She is well known here and esteemed by all. Since the death of her husband she has spent a good deal of time with her Indianapolis relatives. Early in the cam-paign of 1888 she entered the Harrison me at the request of her aunt, the late Mrs. Harrison.

The bride will come into a beautiful

home in North Delaware street. The old square brick mansion has been greatly improved since Mr. Harrison left the presidential chair. Only a few months ago a large veranda extending across the front was erected, and the interior has been remodeled and refurnished. The general's stables are well equipped. Only two weeks ago the ex president purchased a site for a summer cottage at Old Forge, where he took his vacation last year, and he will probably spend four or five months of the year there. "I have been unfortunate in many things and have not been sustained in my command. When I came to Havana from Matanzas I sought to avoid a public appearance, but all saw the reception ac-corded me, which I had not requested, be-cause I am an enemy of public demonstra-tions. Nevertheless, for days after this certain politicians were continually writing to Madrid requesting that I should be relieved.

"In consequence two days since I called a conference of the political leaders to hear what they should say. I then in-formed the home government that owing to the serious and critical situation and actuated by serious and patriotic considerations, I should be obliged to them for the courtesy of a relief from my com-mand. My request having been granted I am pleased to deliver my command to General Marin, confident that he will do much to bring peace.

General Marin, the acting general Cuba, in an interview Saturday said he believed that the politicians here and elsewhere in the island went further in their judgments passed upon the conduct of General Campos than the circumstances warranted. He insisted that Campos was worthy of every consideration and spoke very highly of the ability of his late chief

BUSINESS MEN ARE PERPLEXED.

eign Questions Makes Calculations Very Hazardous-Manufactures Almost at a Standstill Waiting for a Demand Which

NEW YORK, Jan. 20-R. G. Dun & Co.'s Weekly Review of Trade says: The situation could hardly be more perplexing for business men. Practical merchants, man-ufacturers or bankers can have little symulties. None doubts that the govern ment will raise money to meet obliga tions, but how far the money market will disturbed or the treasury reserve business world cannot know as yet how far the foreign questions settlement. It cannot know what may be the duties on any important class of imports a month hence, whether imports are likely to exceed exports and draw away gold, or whether the deficit of revenue will continue, or what other taxation will continue, or what other taxation will be levied. Failure of the senate, thus far, to take any action upon financial measures proposed by the president, or those passed by the house, affects unfavorably all branches of business.

Speculation Continues Inactive. Under such adverse circumstance actually encouraging that shrinkage in transactions and resulting or disasters have not been greater. large failures within a day or two indicontinue without much Speculation in products very active, and wheat was practically unchanged, though Atlantic exports for two weeks, flour included, have been 4,483,190 bushels, against 4,273,125 bushels last year. Western receipts still make year. Western receipts still make short crop predictions ridiculous, amounting, for two weeks of January, to 5,421,976 bushels, against 2,550,122 bushels last year. Corn receipts were also lib-eral, and the exports were about five times those of last year's. Cotton receipts still indicate a yield neither as small as Mr. Neill's reiterated estimate of 0,500,000 bales nor as large as the 7,000,000 bales estimated by others; but it is yet to be seen whether supplies held for better prices are of consequence. The price de-clined ½ cent, with accounts of narrower demand by spinners abroad and declining ces for goods in this country.

No Progress in Manufactures. No branch of manufactures shows prog-ress, for all are unavoidably waiting, both for settlement of financial doubts and for for settlement of financial doubts and for a demand, which does not appear. Cotton goods are not quotably lower, but concessions to secure business are reported in many instances, and many of the mills more demand, but not enough to keep most of the mills running full. Sales of wool in two weeks have been 4,944,300 pounds of domestic and 6,823,300 foreign, against 6,260,615 pounds domestic and 4,410,200 pounds of foreign last year.

Iron Market Anomalies The pig iron output weekly Jan. 1 was 207,481 tons, a decrease of 8,318, or 4.3 per cent in December, and unsold stocks inocen. In December, and unstall stocks in-creased 91,125 tons, or over 20,000 weekly, while the great steel companies, whose stocks are not reported, produced in De-cember 342,005 tons. The production is so cember 342,805 tons. The production is so far beyond the present demand for finished products that temporary stoppage of many furnaces is expected. Yet pig from is higher, Bessemer about 50 cents, and gray forage and anthracite 25 cents, aithough finished products are generally weaker, with less demand. Controllers of coke and ore output are said to have agreed to maintain prices above those of 1895, which means dearer pig-iron, but if orders for finished products do not materially increase the advance in materials can hardly be maintained. Failures for the past week have been much larger in magnitude, numbering 385 in the United States, against 573 last year, and 81 in Canada, against 50 last year.

No Use for the Dole Governme MASSILLON, O., Jan. 20.-A press dispatch sent out from San Francisco says: "The Hawaiian band, stranded in a town in Ohio, will be sent back to Honolulu at in Ohig, will be sont back to Honoutin at the expense of the government."
